

EventServ Fencing

Welcome to **EventServ**, a leading event services provider in Ireland & the UK, specialising in the hire and sale of staging, seating, rigging, drapage and crowd control solutions to the event sector.

EventServ supplies a comprehensive range of crowd control and site demarcation products for your event site. With the largest stocks available in Ireland and the UK, **EventServ** can facilitate from small local events to the biggest music festivals nationwide.

Front of Stage Barrier

Developed to use as a safety device to control crowds in various types of events, ranging from pop concerts to outdoor events.

This barrier offers a combination of optimum safety and comfort for the audience and a safe working area for rescue personnel.

EventServ Fencing

Concept Heras Fencing Stillage*

EventServ's Concept Stillage custom designed to hold a complete package of 35 panels, 35 rubber bases & 35 Couplers. The two main advantages of using the stillage is

1. Reduces transport requirements by up to 50% per event.
2. It also assists your event in being "Greener" with less transport and plant required. On initial trials coupled with the introduction of the round top re-enforced centre bar heras panel, we have seen a reduction of 30% in damages on site. (*Patent Pending)

Crowd Control Barriers

- 1.1m High X 2.3m Wide Fixed leg barrier. (Increased wall thickness 1.2mm)
- 1.1m High X 2.5m Wide Fixed leg barrier.
